

TRUST FACTORY FOR STEEL FABRICATIONS

ABOUT US

Established in 2004, Trust General Trading & Contracting operates an **ISO 9001:2015**-certified fabrication facility in Kuwait, backed by over two decades of field-proven expertise. We specialize in end-to-end structural steel and precision sheet metal solutions for the oil & gas and construction sectors. Our integrated workshop capabilities cover engineering design, CNC fabrication, industrial coating, modular assembly, and on-site installation, all executed under strict quality and safety controls.

Guided by our “**Quality Wins**” philosophy, every weld, cut, and installation is built to certified standards. We combine advanced manufacturing practices with reliable project management to deliver precision, full traceability, and workshop-to-site accountability you can count on.

Engineering Excellence. Built on Trust

From concept to commissioning, we deliver certified quality, on-time execution, and responsive project support—so your structural steel projects move seamlessly from design to delivery.

ENGINEERING & DESIGN SOLUTIONS

WE ENSURE EVERY PROJECT IS TECHNICALLY SOUND BEFORE FABRICATION BEGINS, MINIMIZING ERRORS AND MAXIMIZING EFFICIENCY.

TECHNICAL EXPERTISE & INNOVATION

We focus on smart execution: early collaboration, value engineering, and digital detailing to simplify complexity. By refining workflows and embracing modular strategies, we turn challenging designs into efficient, buildable solutions—reducing risk and keeping your project on track.

DESIGN & DEVELOPMENT

- **Structural Analysis** – Validates design integrity and ensures fabrication feasibility
- **Shop & As-Built Documentation** – Detailed drawings and accurate records for seamless project handover
- **CAD/CAM Integration** – Direct conversion of designs into machine-ready instructions, eliminating manual translation errors
- **Client Engineering Coordination** – Continuous alignment to accelerate approvals and minimize rework
- **Precision Execution** – Guaranteed accuracy from concept to cut, aligning design intent with workshop reality

TECHNICAL SUPPORT

- **Value Engineering** – Strategic design optimization to reduce costs while maintaining performance, safety, and code compliance
- **Material Selection Consultation** – Expert guidance on steel grades, coatings, and alternatives tailored to environmental and operational demands
- **Technical Review & Constructability Checks** – Proactive assessment of specifications to ensure workshop feasibility and seamless site installation
- **Ongoing Engineering Liaison** – Dedicated technical support for drawing clarifications, query resolution, and real-time project adjustments

INFRASTRUCTURE BUILT FOR SCALE

FACILITIES & FACTORY CAPACITY

PRODUCTION CAPACITY

- Annual Fabrication Capacity: 2500 Metric Tons.
- Monthly Fabrication Capacity: 200 Metric Tons.

STORAGE & LAYDOWN YARD

- Covered Storage Area: 400 m²
- Open Laydown Yard: 2000 m²
- Organized Material Stacking & Preservation

ADVANCED MACHINERY & TECHNOLOGY

CUTTING & PROFILING

- CNC Plasma Cutting Machine
- CNC Oxy-Fuel Cutting Machine
- Laser Cutting Machine
- Hydraulic Shearing Machine
- Band Saw / Circular Saw Cutting Machines
- Manual Gas Cutting Sets

DRILLING & PUNCHING

- Radial Drilling Machine
- CNC Drilling Line
- Hydraulic Punching Machine
- Magnetic Drilling Machines

FORMING & BENDING

- Hydraulic Press Brake
- Plate Rolling Machine (Pyramid / Initial Pinch)
- Section Bending Machine (Angle Bender / Channel Bender)
- Hydraulic Press

WELDING EQUIPMENT

- MIG/MAG Welding Machines
- TIG Welding Machines
- Submerged Arc Welding (SAW) Machines
- Manual Arc Welding (SMAW) Sets
- Welding Positioners & Manipulators
- Welding Fume Extraction Systems

MATERIAL HANDLING

- Overhead Cranes (EOT Cranes)
- Forklifts
- Jib Cranes
- Hydraulic Lifts / Scissor Lifts

SHEET METAL WORKS

- CNC Turret Punch Press
- Guillotine Shear
- Folding Machine
- Roll Forming Machine

QUALITY CONTROL & TESTING

- Ultrasonic Testing (UT) Equipment
- Magnetic Particle Testing (MT) Equipment
- Dye Penetrant Testing (PT) Kits
- Coating Thickness Gauge
- Welding Gauge Set
- Dimensional Inspection Tools (CMM / Laser Tracker)

SURFACE TREATMENT & PAINTING

Protecting your assets against Kuwait's harsh environment is a priority. Our dedicated surface treatment facility

SURFACE PREPARATION & PAINTING

- Shot Blasting Machine
- Sand Blasting Equipment
- Airless Spray Painting System
- Paint Drying Booth
- Air Compressors of different capacities
- Surface Preparation to SA 2.5 Standards
- Dust Collection & Environmental Control
- Controlled Painting Booths
- Application of Epoxy, Zinc Rich, Polyurethane

**Compliance with Client Specifications
&
Standards of Oil & Gas**

WORKSHOP DIVISION SERVICES

STRUCTURAL STEEL DESIGN

Structural steel design, detailing & fabrication—including custom frames, platforms, and modular structures

PRECISION SHEET METAL FABRICATION

Precision sheet metal fabrication & enclosure works

PIPE SPOOL FABRICATION

Pipe spool fabrication, welding & assembly for process and utility systems

INDUSTRIAL PAINTING

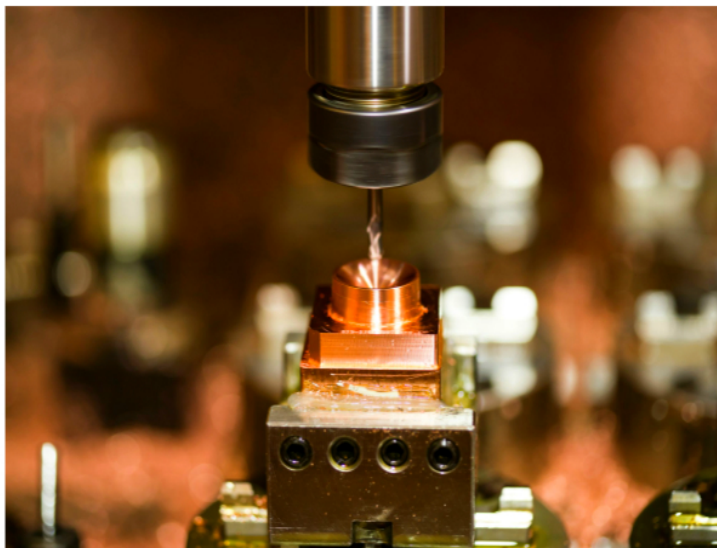

Industrial painting, coating & surface protection for corrosion resistance

ON-SITE INSTALLATION

On-site installation, integration & commissioning support

CNC CUTTING, WELDING

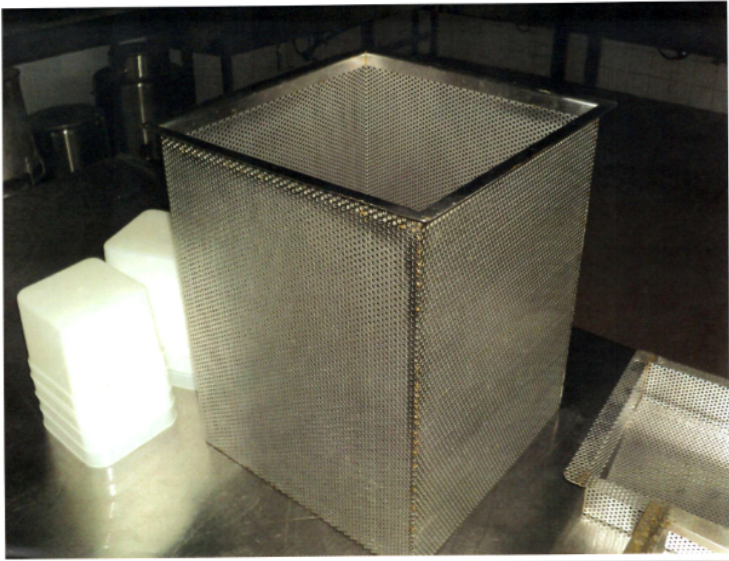

CNC cutting, welding & modular assembly for complex steel components

FABRICATION OF STORAGE TANKS

Fabrication of storage tanks, pressure vessels & process tanks (various types & capacities).

TECHNICAL CAPABILITIES WELDING & MATERIALS

Our services cover all types of welding processes

SMAW (Shielded Metal Arc Welding)
FCAW / MIG (Flux-Cored Arc Welding)
GTAW / TIG (Gas Tungsten Arc Welding)
Resistance Spot Welding

Certified in all positions
2G, 3G, 4G & 6G

PROFESSIONAL TECHNICAL TEAM

CONTINUOUS TRAINING

Regular upskilling to maintain certification and adopt new technologies

ENGINEERING DEPARTMENT

- Civil & Mechanical Engineers
- CAD Designers & Draftsmen

PRODUCTION TEAM

- Certified Welders & Fitters
- CNC Machine Operators
- Painters & Blasters

QA/QC & SAFETY

- Certified Inspectors (CSWIP/AWS)
- Safety Officers (NEBOSH/OSHA)
- Material Control Specialists

Our greatest asset is our people. We employ a professional technical team comprising

QUALITY, HEALTH, SAFETY & ENVIRONMENT (QHSE)

We operate under an Integrated Management System

Quality Control at Every Stage (ITP)

Zero Harm Safety Policy

Environmental Compliance & Waste Management

Third-Party Inspection Welcome (SGS, TUV, etc.)

"A visit to our Facilities will indicate our qualifications"

PROJECT PORTFOLIO

OIL & GAS

- KNPC – Halon Phase Out (500 Ton)
- KOC – Fire Water Tanks (4 Tanks, Dia 28m)
- PIC – Chemical Plant Tanks & Monel Spools

POWER & UTILITIES

- MEW – Sabiya CCGT & Az Zour South Structures
- TSK – Shagaya Renewable Energy (180 MT)

INFRASTRUCTURE

- Multiple Steel Structures for MEW Substations
- Pipe Supports & Spools for KOC Fields

PROJECT LIST

SLNo	Client	Project Details	Job Details
1	AL Kout Industrial Projects	Industrial Chemical Plant	Fabrication of Tank and Monel Spools
2	Arabi Enertech	Installation of New Fire Water Tank at Gc-17 & 28	Erection,Fabrication & Painting of Tank - Dia 28 Mtr X 12Mtr Height - 04 Nos (GC-17 & 28)
3	Consolidated Contractors Company	Mew Contract MEW/C/3931	Steel Structure Fabrication- Approx 80 Ton
4	Khalid Ali Kharafi & Bros	LPG Train-4 Project	Steel Structure Fabrication- Approx 15 Ton
5	Hanwha Engineering & Construction	Halon Phase Out Project	Steel Structure Fabrication & Painting -Approx. 500 Ton
6	L & T	GC-30	Fabrication of Pipe Supports,GC-150 MT
7	Al Yousifi Engineering & Construction Co. W.L.L	Jurassic Production Facilities at North Kuwait	Fabrication & Painting of New Diesel Tank & TEG Storage Tank
8	ANCO	ANCO High Point, NC	Stainless Steel Storage Tank (Liter Fit Tank)
9	Hyundai Heavy Industries, Co Ltd	Sabiya CCGT project	Structural Fabrication-Approx 120 Ton
10	National Contracting Company Ltd	Az Zour South CCGT2 Project	Steel Structure Fabrication- Approx 30 Ton

Sl.No	Client	Project Details	Job Details
11	Sayed Hamid Behbehani & Sons	BS-132 Project	Steel Structure Fabrication- Approx 20 Ton
12	SK Engineering & Construction	BS-132 Project	Steel Structure Fabrication- Approx 70 Ton
13	Larsen and Toubro Kuwait Construction	Revamp of PIC	Heavy Structure Fabrication- Approx 120 Ton
14	General Electric International	Sabiya CCGT project	Structural Fabrication-Approx 120 Ton
15	Larsen and Toubro Kuwait Construction	New GC-116 Project	Piping SPOOL Fabrication-39000 ID
16	HHI	Az-Zour North Phase 1-IWPP	Fabrication of Main Stacks & Ventilation Ducts
17	Punj Lloyd	Expansion and Revamping of Ahmadi Depot	Steel Structure Fabrication- Approx. 100 Ton
18	Mushrif Trading & Contracting Co.	Multi Point Smokeless High Pressure Flare Project	Fabrication & Painting of Ultra Sonic Flaw Detector Pipe Spools
19	ASKAR INTERNATIONAL	Jurassic Production Facilities at North Kuwait	Fabrication of Pipe Supports
20	JML	Shagaya Renewable Energy Project 50 MW CSP Project	Fabrication and Painting of Structural Steel-180 MT

OUR CLIENTS

1. Real Estate Construction & Fabrication Co.(RECAFCO)
2. Al-Kout Industrial Project
3. Kirby Building System
4. ARABI ENERTECH
5. Kuwait Cement
6. Kuwait Company for Process Plant K.S.C.(KCPC)
7. Heavy Engineering Industries & Shipbuilding Co. K.S.C.
8. Consolidated Maintenance Services – Bulk Service (Various Customers)
9. Al Rashid
10. Ahmadiya
11. K-Five
12. Al-Meer
13. Kuwait Steel
14. Smith
15. Nasser Al Baddah Trading Co.(NBTC)
16. KOMC
17. Advanced technology Company (ATC)
18. Al-Awrad
19. Prime One
20. Italba servicec (GE)
21. Kuwait Dairy Company
22. Kuwait Value Gen
23. Southfield Gen.Trad.
24. The Contrater Co.
25. ASAS AL RIYADA
26. Hydroteck Engineering
27. KOC
28. Al-Yousifi
29. LARSEN & TUBRO (L&T)
30. Mushrif Trading & Contracting Co.
31. MUSHRIF Trading & Contracting Co.
32. Refreshment Trading Co.
33. Hyundai Heavy Industries-HHI
34. Mega Yapi
35. ANCO
